Forecast for Saturday 13 Feb 2021

Weather: Most places will stay dry with clear then sunny periods and glare from snow cover. Clouds will increase from the west in the afternoon with patchy light snow but not amounting to much. Very strong winds will continue to cause drifting and blowing of existing snow.

Chance of cloud free mountain/hill tops above 800m: 80% lowering to 40% from west later afternoon.

Visibility: Generally good but some blowing snow will result in whiteout conditions. Much of the cloud cover will be above the tops, lowering to 700m from west later in afternoon.

Met Office Aberdeen Meteorologist's View
Very severe chill effects with gale force winds and temperatures well below freezing.

Forecast for Sunday 14 Feb 2021
Weather: A cloudy, cold, windy day with outbreaks of snow and even a risk of freezing rain. The snow will become heavier in the afternoon with blizzard conditions for a time, then turning to rain at lower levels before clearing during the evening.

Maximum wind: Very strong southerly winds, average speeds of 40 to 50mph and gusts 70mph.

Chance of cloud free mountain/hill tops above 800m: Little chance.

Visibility: Generally misty conditions with extensive cloud cover about 600 to 700m with patches lower down. Whiteout conditions in afternoon as snow becomes heavier.

Temperature: **Glens:** Minus 3 Celsius rising to plus 3 Celsius
At 800m: Minus 2 Celsius rising to plus 2 Celsius during evening.
Freezing level: Temperatures below freezing at most levels in the morning, then rising to 1000m during evening.
